

## Release Notes

### CY4502 EZ-PD™ CCG2 Development Kit

Release Date: September 25, 2015

Thank you for your interest in CY4502 EZ-PD CCG2 (Cypress's second-generation USB Type-C Controller) Development Kit. This document lists installation requirements, limitations, and known issues with the kit.

#### System Requirements and Recommendations

Hardware/Operating System Requirements	Minimum	Recommended
Processor speed	1 GHz	2 GHz
RAM	2 GB	4 GB
Free hard disk space	100 MB	100 MB
Screen resolution	1024 x 768	1280 x 1024
USB 3.0 Host <sup>1</sup>	USB 3.0 <sup>1</sup>	Type-C
A USB device <sup>2</sup>	USB 2.0 <sup>2</sup>	Type-C
Microsoft Internet Explorer	9.0	10.0 or later
Adobe Reader (for PDF Documents)	9	11.0.0.4 or later
<b>Software Requirements</b>		
PSoC Programmer	3.23	3.23 or higher
USB Serial Software Development Kit 1.0	1.0	1.0 or higher

<sup>1</sup>CY4501 CCG1 DVK's Host board and a PC with a USB Host can be used if a PC with Type-C Host is not available

<sup>2</sup>CY4501 CCG1 DVK's Client board can be used with a USB 2.0 device if a Type-C device is not available. Visit [www.cypress.com/CY4501](http://www.cypress.com/CY4501) to get more details.

#### Installation

Download the *CY4502 EZ PD CCG2 Development Kit Setup Package* from <http://www.cypress.com/CY4502>. Launch the EXE file and follow the steps in the installer window to install the required software

#### Kit Revision

This is the third revision (Rev. \*B) of CY4502 EZ-PD CCG2 Development Kit.

#### Updates

Following are the changes implemented in Rev \*B revision of the kit:

- Updates to Kit Guide:
  - Content related to CY4501 CCG1 DVK (CCG1 Client board & CCG1 Host board) are updated in Chapter 3 (Kit Operation)
  - References to *cc\_flash.exe* (firmware upgrade application) are replaced by *EZ-PD Configuration Utility*
- Update to Kit Package:
  - *cc\_flash.exe* is removed from the kit package. *EZ-PD Configuration Utility* needs to be used instead of *cc\_flash.exe*. Refer to the Kit Guide for more details

Visit [www.cypress.com/CY4502](http://www.cypress.com/CY4502) for updates on the documentation.

## Documentation

The kit documents are available in <Install\_Directory>\Cypress\CY4502 CCG2 DVK\<Version>\Documentation\

- *CY4502 EZ PD CCG2 Development Kit Guide.pdf*
- *CY4502 EZ PD CCG2 Development Kit Quick Start Guide.pdf*

### Copyrights

© Cypress Semiconductor Corporation, 2015. The information contained herein is subject to change without notice. Cypress Semiconductor Corporation assumes no responsibility for the use of any circuitry other than circuitry embodied in a Cypress product. Nor does it convey or imply any license under patent or other rights. Cypress products are not warranted nor intended to be used for medical, life support, life saving, critical control or safety applications, unless pursuant to an express written agreement with Cypress. Furthermore, Cypress does not authorize its products for use as critical components in life support systems where a malfunction or failure may reasonably be expected to result in significant injury to the user. The inclusion of Cypress products in life-support systems application implies that the manufacturer assumes all risk of such use and in doing so indemnifies Cypress against all charges.

Any Source Code (software and/or firmware) is owned by Cypress Semiconductor Corporation (Cypress) and is protected by and subject to worldwide patent protection (United States and foreign), United States copyright laws and international treaty provisions. Cypress hereby grants to licensee a personal, non-exclusive, non-transferable license to copy, use, modify, create derivative works of, and compile the Cypress Source Code and derivative works for the sole purpose of creating custom software and/or firmware in support of licensee product to be used only in conjunction with a Cypress integrated circuit as specified in the applicable agreement. Any reproduction, modification, translation, compilation, or representation of this Source Code except as specified above is prohibited without the express written permission of Cypress.

Disclaimer: CYPRESS MAKES NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH REGARD TO THIS MATERIAL, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Cypress reserves the right to make changes without further notice to the materials described herein. Cypress does not assume any liability arising out of the application or use of any product or circuit described herein. Cypress does not authorize its products for use as critical components in life-support systems where a malfunction or failure may reasonably be expected to result in significant injury to the user. The inclusion of Cypress' product in a life-support systems application implies that the manufacturer assumes all risk of such use and in doing so indemnifies Cypress against all charges.

Use may be limited by and subject to the applicable Cypress software license agreement.

### Flash Code Protection

Cypress products meet the specifications contained in their particular Cypress PSoC datasheets. Cypress believes that its family of PSoC products is one of the most secure families of its kind on the market today, regardless of how they are used. There may be methods, unknown to Cypress that can breach the code protection features. Any of these methods, to our knowledge, would be dishonest and possibly illegal. Neither Cypress nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable."

Cypress is willing to work with the customer who is concerned about the integrity of their code. Code protection is constantly evolving. We at Cypress are committed to continuously improving the code protection features of our products.
