**3D Download:** Sketchup, STL, Blender

**Description:** If you need to charge LiPo batteries, this simple charger will do just that. It is designed to charge single-cell Li-Ion or Li-Polymer batteries. Check the datasheet below to see if it will work with your battery.

The board incorporates a charging circuit, status LED, connector for your battery (JST-type used in the batteries we carry), and a mini-USB connector.

**Note:** This version uses a mini-USB cable. We also have this charger with a micro-USB connection as well.

**Dimensions:** 29.4x10.8mm
