Click on Image for Larger View

These Polycarbonate and high-impact ABS molded enclosures meet NEMA 1, 2, 4, 4x, 12, and 13 specifications and are ideal for PCB enclosures, junction boxes and other applications in the electrical and electronic industries. They come with molded external mounting brackets. Available in a variety of sizes, these enclosures are offered in three different versions.

Style 1 - Light gray polycarbonate body and cover. Body/Cover - UV stabilized, UL94-HB flammability rating, suggested service temperature -40C to 120C.

Style 2 - Light gray polycarbonate body and clear polycarbonate cover. Body/Cover - UV stabilized UL94-HB flammability rating suggested service temperature -40C to 120C.

Style 3 - (For indoor use only) Dark gray ABS body and cover. Body/Cover - UL94-HB flammability rating, suggested service temperature 0C to 80C.

**Design Features**

- Designed to IP65 of IEC 529 and NEMA 1, 2, 4, 4x, 12, and 13 specifications
- UL Listed
- Molded external mounting brackets eliminate the need for assembly of separate brackets
- Cover attaching screws are outside the sealing area thus preventing ingress of moisture and dust.
- Most models have internal guide slots for mounting PCB assemblies vertically.
- Cover screws are M-4 stainless steel, non-magnetic and fasten into threaded brass inserts.
- Gasket Material: Silicon Sponge
- See [PN Series](#) for boxes without external mounting brackets.
