

Capacitor, tantalum, 1.8 uF, +/-10% Tol, 35V@85C

## **Dimensions (mm)**

| ID<br>D<br>L1 | <b>Dimension</b><br>3.43<br>7.26 | <b>Tolerance</b><br>+/-0.25<br>+/-0.79 |
|---------------|----------------------------------|--|
| L2            | 10.72                            | +0                                     |
| F             | 0.51                             | +/-0.05                                |
| LL            | 38.1                             | +/-6.35                                |

## **Specifications**

| Manufacturer:        | KEMET                         |
|----------------------|-------------------------------|
| Value:               | 1.8 uF                        |
| Voltage DC @ 85C:    | 35V                           |
| Voltage DC @ 125C:   | 23V                           |
| Tolerance:           | +/-10%                        |
| Application:         | Military ER/General Purpose   |
| Body Type:           | Axial Hermetic ('cs13-style') |
| Temperature Range:   | -55/+125C                     |
| ESR:                 | 6 Ohm                         |
| ESR Frequency @ 25C: | 100kHz                        |
| Leakage Current:     | 1 uA                          |
| Dissipation Factor:  | 4%                            |
| Package Kind:        | Bulk                          |
| Package Type:        | Box                           |
|                      |                               |

Notes:

-Dimensions include insulating sleve (standard) -A
