

**3.50mm (.138") Pitch
35 Series
Beau® Eurostyle®
Fixed Terminal Blocks**

39357

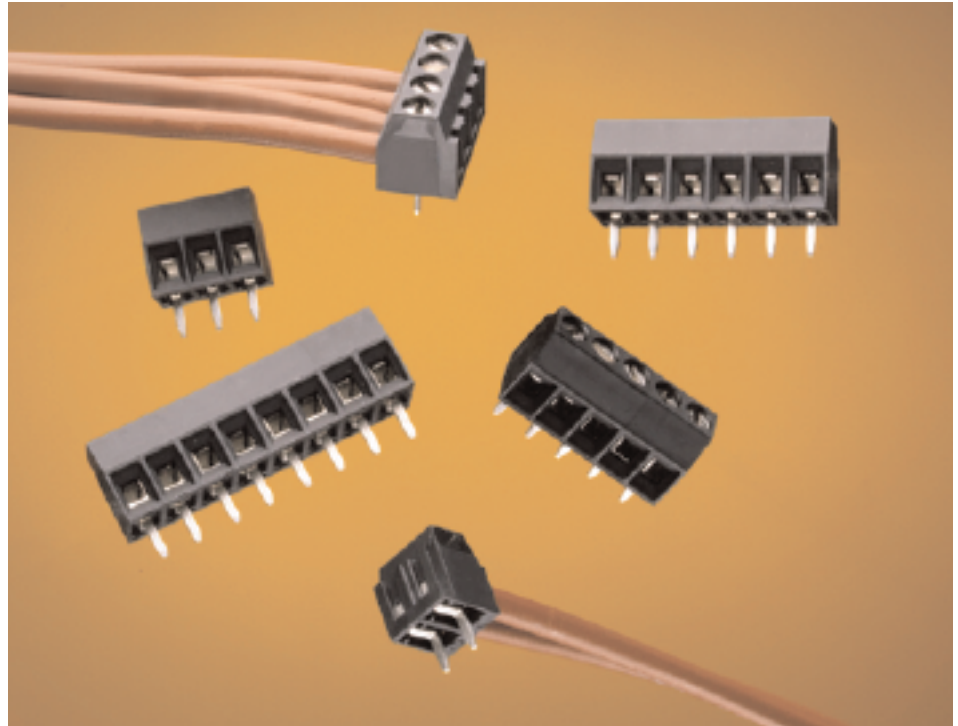

Beau Eurostyle 35 series fixed (one-piece) terminal blocks offer a compact solution where PCB space is constrained

The small pitch size on Molex's 3.50mm (.138") fixed Terminal Blocks help solve packaging problems due to limited PCB real-estate. 3.50mm (.138") terminal blocks continue to gain market acceptance and are now used regularly in many applications as more high density I/O applications are released.

These terminal blocks are available molded-to-length in up to 25 circuits and are manufactured with captive screws and a rising cage clamp termination, providing a secure, gas-tight connection when terminating wires.

Features and Benefits

- Rising cage clamp termination provides a gas-tight connection without strand damage or intermittence
- Small pitch size is ideal for limited PCB real-estate applications
- Captive screws will not back out of the housing
- Molded to length providing an easier to work with solution versus parts that need to be dovetailed to form longer circuit sizes

SPECIFICATIONS

Reference Information

Packaging: Box
 UL File No.: E48521
 Guide No.: XCFR2
 UL for Canada File No.: E48521
 Guide No.: XCFR8 (Pending)

Electrical

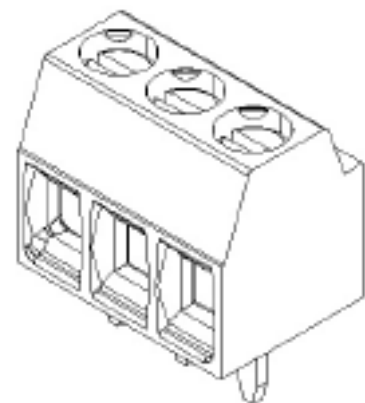

Voltage: 300V
 Current: 12.0A
 Contact Resistance: 15 milliohms max.
 Insulation Resistance: 1000 Megohms (500VDC) min.

Mechanical

Wire Range: 16 to 28 AWG (1.31 to 0.08mm²)
 Strip Length: 5.00mm (.200 in.)
 Tightening Torque: 0.30Nm (2.7 in-lbs)

Physical

Housing: Nylon, PA 6/6
 Contact: Copper Alloy
 Contact Plating: Tin
 Screw: M2, slotted, Copper Alloy
 Screw Plating: Nickel
 Cage Clamp: Copper Alloy
 Cage Clamp Plating: Nickel
 Operating Temperature: +105°C max.

3-circuit fixed terminal block

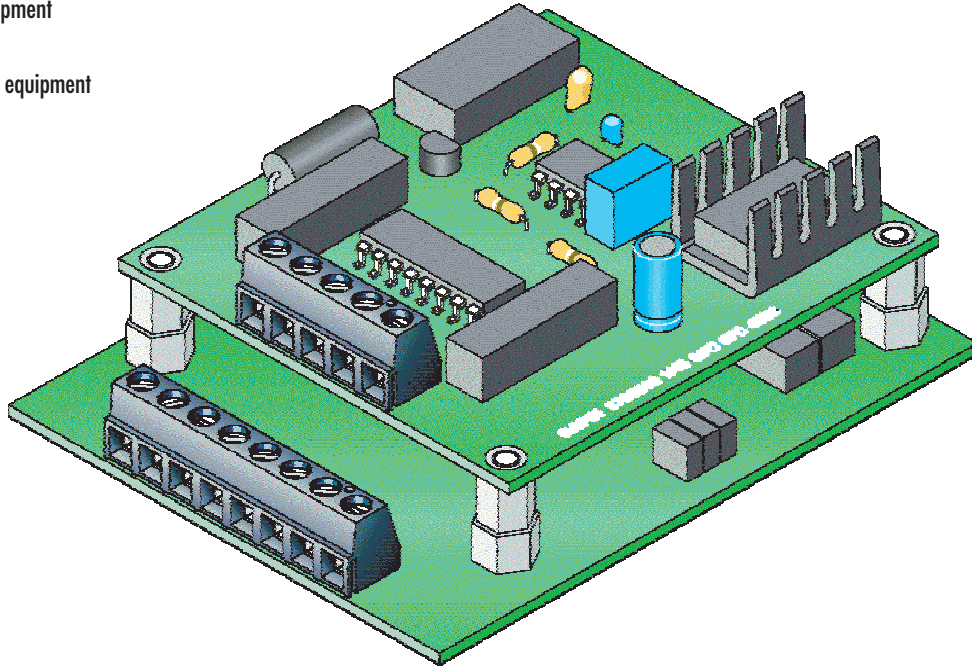

APPLICATIONS

3.50mm (.138") Pitch 35 Series Beau® Eurostyle® Fixed Terminal Blocks

39357

- Process controls
- Instrumentation
- Motion control
- Factory automation
- Scales and weighing equipment
- Signal conditioning
- Security and surveillance equipment
