

- Complies to HL1 & HL2 According to the Railway Standard DIN EN 45545-2
- VW-1, FAR 25
- Easy, Cost And Labor Effective Wraparound Installation
- More Flexible Than Spiral Wrap Of Split Convuluted Tubing
- 25% Edge Overlap
- Resists Chemicals & Solvents

Cut Cleanly  
Hot Knife

**Material**

PET

**Grade**

F6F

**Monofilament Diameter**

.008" - .015"

**Drawing Number**

TF001F6F-WD

**Put-Ups**

**Flexible, Semi-Rigid Split Sleeving Will Not Support Combustion**

Flame spread is a vital safety consideration in applications as diverse as home built aircraft wiring and safely managing sound & lighting cables at clubs, concerts and theaters. To accommodate these issues, and to provide unequaled flexibility and access, we've developed this unique sleeving product.

Self-extinguishing F6F fully complies with UL standard VW-1. The addition of a flame inhibitor to our triaxially braided F6 split sleeving provides the perfect solution to a wide range of cable management needs.

Easy slip over installation, complete access along the entire run, economy, durability and UL certified flame retardant make F6F ideal when the goal is to manage wires and cables safely and effectively.

**Colors Available:**  
Black with White Tracer (TB)

The large overlap allows easy installation over splices and incline connectors without exposing wires and cables.
