

Electronics

Circular Plastic Connector Right-Angle Cable Clamp with Cover

DESCRIPTION

 This product features an attachable cover that will provide wire insulation protection at the rear of the connector body.

APPLICATIONS

- · Industrial Machinery
- Instrumentation
- Any AMP Circular Plastic Connector application where a straight cable clamp is too long

KEY FEATURES

- Strain relief body uses a coupling ring to attach to the connector body which allows the harness assembler to position the direction of the wire assembly in a 360° radius
- Attachable cover provides an enclosure that will not allow access into the rear of the connector body. This provides insulation protection of the wire.

MECHANICAL

• Designed to provide strain relief for even the heaviest of harnesses in most applications.

MATERIALS

Made from black thermoplastic, heat stabilized, fire-resistant, self-extinguishing, UL 94V-0 material

STANDARDS & SPECS

Product Specification: 108-10024
Application Specification: 114-10038 (CPC)
Instruction Sheet: 408-7582
